

Large-print labels and TMS mapping (example from <https://collection.cooperhewitt.org/exhibitions/907219083/large-print?pt=18>):

Exhibition level text entry with section name in remarks; matches to section name in `exh obj xrefs`

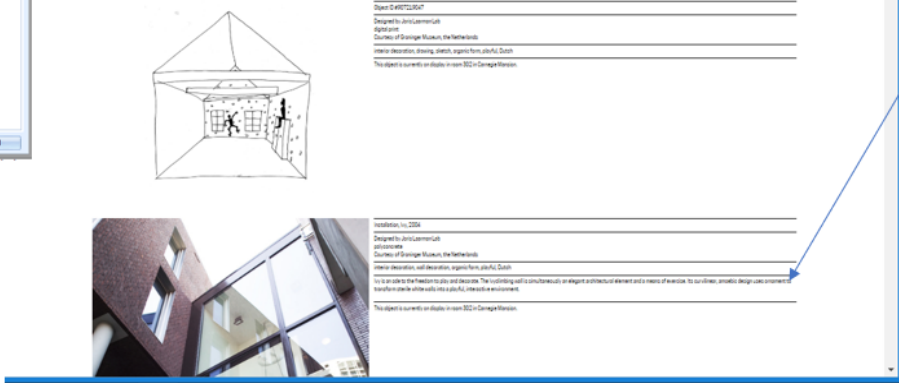

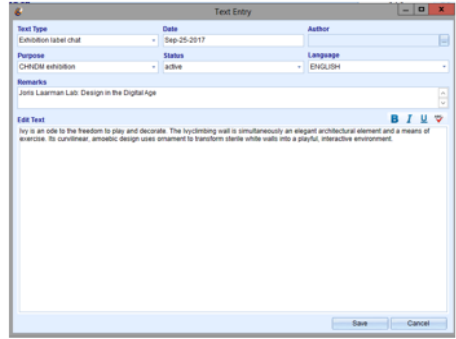

Exhibition level text entry with `exhibitionID` in text entry remarks

Object level text entry with exhibition title in remarks (I would use `exhibitionID` if doing over)
